

"Your partner in packaging, worldwide"

ARHAM ENTERPRISES LTD.

FIBC, PVC

Manufacturer
& Supplier

MOHAMMADATIF KHOTA

M.D and CEO

MR.AMIR DEDKA

Director operations

**Strategic Leader | Results-Driven
Operational Excellence Advocate**

Introduction:

With a proven track record of optimizing operational processes and driving organizational efficiency, Mohammad Atif is an accomplished Operations Director. His strategic leadership and hands-on approach have consistently resulted in streamlined operations, cost savings, and enhanced overall performance.

Operational Excellence:

Mohammad specializes in developing and implementing strategies to improve operational efficiency. Through rigorous analysis and process optimization, He have successfully reduced lead times, minimized waste, and enhanced overall productivity.

Supply Chain Management:

Mohammad's expertise extends to supply chain optimization, ensuring a seamless flow from procurement to delivery. He has implemented robust supply chain strategies that have minimized costs, reduced inventory levels, and improved overall supply chain resilience.

Team Leadership and Development:

As a leader, Mohammad is dedicated to fostering a collaborative and high-performing team. He prioritizes talent development, empowering team members to take ownership of their roles. This approach has led to increased team morale, efficiency, and a positive workplace culture.

Technology Integration:

Mohammad is at the forefront of integrating technology to enhance operational capabilities. By leveraging cutting-edge tools and systems, having successfully automated processes, resulting in increased accuracy and faster decision-making.

Quality Assurance:

Maintaining high-quality standards is a non-negotiable aspect of Mohammad's operational strategy. He has implemented rigorous quality assurance measures that ensure products and services meet or exceed customer expectations.

Cost Management:

Mohammad's financial acumen extends to effective cost management. Through strategic budgeting and cost-control measures, having consistently delivered on financial targets while maintaining the highest standards of operational excellence.

Strategic Planning:

Mohammad excels in developing and executing strategic plans aligned with organizational goals. By collaborating with cross-functional teams, he ensures that operational strategies contribute to the overall success and growth of the company.

Achievements:

Throughout my career, Mohammad has spearheaded key initiatives, such as [mention specific achievements or projects], resulting in tangible improvements in operational efficiency, customer satisfaction, and overall business success.

Conclusion:

As an Operations Director, Mohammad's commitment to operational excellence, strategic leadership, and team development positions me as a valuable asset to any organization.

FIBC

Flexible Intermediate Bulk Container (FIBC) or simple bags are in large dimension for strong, transporting and easy handling the commodities. FIBC's are the most economical packaging materials and ideal type of packaging for shipping and storing. These can be produced from Flat fabric or Tubular Fabric either coated or uncoated and vary in weight depending on the requirements of safe working load(SWL) or safety factor (SF). An FIBC can be as simple as an open top flat bottom used commodities for packaging of building materials and high tech clean room productions to be used for pharmaceutical material packaging. The important things in FIBC is manufactured to meet a customer's specific requirements.

FIBC Single & Double Loop Bag

FIBC Builder Bag

FIBC UN Certified Bag

FIBC Type C Bag

FIBC Baffle Bag

FIBC Asbestos Bag

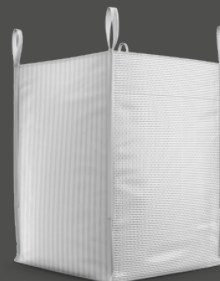

FIBC Tunnel Bag

FIBC Tubular Bag

FIBC Type B Bag

FIBC Ventilated Bag

PP WOVEN SACKS

PP Woven bags become the toughest bags which are used to pack materials Like Grains, sugar, chemical, fertilizer other application are for Building Materials.

Arham designed polypropylene woven bags/ sacks as per requirement of customer specification main features

1. Both sides flexographic printed bag up to 4 colors Single or Both side with corona treatment.
2. Heat cut & hemmed top.
3. Dimension as per requirement.
4. The color of the fabrics as customers needs.
5. Unlaminated / Laminated.

Application:

1. Fertilizers
2. Sugar
3. Animal Feed
4. Seed

Arham offers the following types of PP Bags:

1. PP Bags with liner
2. PP Bags laminated
3. PP Bags Gusseted design

PP-Woven-Bag With Liner

PP-Woven-Bag

PP Laminated Bag

FABRICS

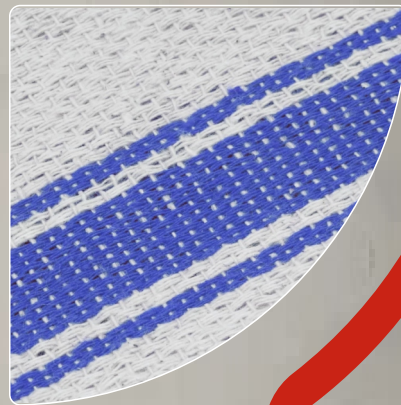

Aareha is one of the leading manufacturers of highest quality fabric as per market requirement, all our fabrics are UV Stabilized.

Circular Fabric / flat fabric

1. 50 cm to 200 cm.

2. Fabric weight 60 gsm to 260 gsm

3. Reinforced fabric for tubular bags.

uPVC & cPVC MANUFACTURER

A UPVC & CPVC pipe manufacturer specializes in producing pipes and fittings made from Unplasticized Polyvinyl Chloride (UPVC) and Chlorinated Polyvinyl Chloride (CPVC). These materials are widely used in plumbing, water supply, drainage, and industrial applications due to their durability, corrosion resistance and high performance.

KEY HIGHLIGHTS

UPVC Pipes: Ideal for cold water systems, drainage, and sewage. They are lightweight, corrosion-resistant, and cost-effective.

CPVC Pipes: Suitable for both hot and cold water systems, as they can withstand higher temperatures than UPVC.

Applications: Used in residential plumbing, irrigation, commercial installations, and industrial processes.

Quality Standards: Comply with international standards (ISO, ASTM) for durability and safety.

Customization: Available in various sizes, pressure ratings, and fitting options for diverse applications.
